PROVU RECYCLING PROGRAM

SEE HOW YOUR ACTIONS CAN SAVE OUR PLANET.

DISPOSE

After using the ProVu Video Laryngoscope System, dispose of the single-use handle and metal blade in the designated bin.

COLLECTION

Once the designated bin is full, it will be collected and sent directly to Spectramedx's main facility.

PROCESSING

The ProVu Handles and Blades are then processed to remove any impurities and are broken down into small pieces and transformed into new products.

LET'S DO OUR PART

By understanding the recycling process, we can all do our part to protect the environment and create a more sustainable future!
